

Brand-Nu Laboratories, Inc. Overview

Brand-Nu Laboratories has a long history supplying excipients to the pharmaceutical industry. Founded in 1956 and ISO 9001: 2000 registered since 1998, Brand-Nu Laboratories has continued to grow and modify its service offerings to anticipate the needs of its pharmaceutical and biotechnology customers. Its achievement as one of Mallinckrodt Baker's Certified Excipient Distributors offers an independent confirmation of Brand-Nu Laboratories' capabilities, affording you a strengthened degree of confidence in your supply chain.

Facility Information

Brand-Nu Laboratories operates manufacturing, packaging and distribution centers worldwide. Its East Coast Distribution Center in Meriden, CT is also home to the company's corporate headquarters. Connecticut's central location provides quick access to customers in the Northeast United States via Brand-Nu Laboratories own transportation system. Other strategically located distribution centers provide customers in other parts of the world with local deliveries.

Services for Biopharmaceutical Customers

In addition to the knowledge and experience acquired from decades of supplying excipients to the pharmaceutical industry, Brand-Nu Laboratories offers numerous services that can be used to develop a custom solution to satisfy the unique supply chain needs of its customers:

- GMP and IPEC Good Distribution Practices (GDP) compliant warehousing
- Change control and notification, total traceability, and tracking purchases by lot number
- Assistance with quality conformance requirements through the review and management of customer specifications as part of Brand-Nu Laboratories' document control system
- Coordination and acquisition of all raw material documentation, including allergen, residual solvent, BSE, GMO, analytical methods, and stability testing information
- Customer specific order configurations, including labeling and palletizing, and accommodating special lot requests
- Summary billings and on-line ordering
- Regular meetings with buyers/planners/schedulers to ensure consistent supply, effective communication and an enhanced understanding of customer objectives and specific requirements
- Problem solving, coordination of technical meetings with manufacturers, and the addressing of Corrective Action Requests

Brand-Nu Laboratories primary mission is to partner with its customers to assist them in meeting their business objectives through a flexible and innovative business model that combines technical competence and exceptional customer service. Brand-Nu Laboratories strives to fully understand customer requirements and current initiatives to offer customers a competitive advantage in the marketplace through unique solutions. Regardless of what your requirements are for product quality, packaging, labeling, technical support, coordination of documentation and auditing access, Brand-Nu Laboratories has the knowledge and industry experience to deliver. Contact Brand-Nu Laboratories to find out how they can assist you in meeting your business objectives.
